EDUCATION

Institute of Engineering & Management, Kolkata

Bachelor of Technology in Computer Science and Engineering (IoT)

Sep 2022–August 2026

CGPA: 8.94

Indira Gandhi Memorial Senior Secondary School, Sreebhum

Indian School Certificate (ISC)

May 2019–Apr 2021

Percentage: 71.00%

Indira Gandhi Memorial Senior Secondary School, Sreebhum

Indian Certificate of Secondary Education (ICSE)

Apr 2018–Apr 2019

Percentage: 85.00%

TECHNICAL SKILLS

Programming Languages: C/C++, Java, Python, JavaScript, TypeScript

Frontend: HTML, CSS, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, Docker, Postman, Visual Studio Code, AWS

PROJECTS

Real Time Code Editor | *React.js, Node.js, Express.js, WebSockets, Piston API*

[Live](#)

- Architected a **Node.js and WebSocket backend** for **real-time code synchronization**, enabling multiple users to collaborate seamlessly within shared coding sessions.
- Leveraged the **Piston API** to enable **multi-language code compilation and execution**, handling execution requests through the backend.
- Established **room-based session management** to isolate collaborative coding sessions and maintain synchronized code state across connected clients.

Text to AI Image Generator | *React.js, Node.js, Express.js, MongoDB, Razorpay, Clipdrop API*

[Live](#)

- Designed an **AI-driven image generation tool** utilizing the **Clipdrop API**, achieving an average image generation time of **10 seconds**, thereby enhancing the **iterative image creation process**.
- Integrated **Razorpay** for handling premium subscriptions and secure online payments.
- Implemented **JWT-based authentication** with protected routes to safeguard user access.

JobFit Evaluator | *React.js, Node.js, Express.js, MongoDB, Firebase, Cohere AI, Docker*

[Live](#)

- Spearheaded the development of a **full-stack web application** enabling users to seamlessly upload resumes and job descriptions for **AI-powered job fit analysis**.
- Built **RESTful APIs** using **Node.js and Express.js** to handle resume uploads, job description submissions, and AI evaluation results, enabling **scalable and efficient data processing**.
- Containerized the **frontend and backend** using **Docker** and published the images to **Docker Hub**, enabling consistent deployment and simplified application distribution.

ACHIEVEMENTS

- Solved **900+** DSA problems on **LeetCode** and **GeeksforGeeks**, demonstrating strong consistency and problem-solving ability
- Achieved a **highest LeetCode contest rating of 1633**, demonstrating strong competitive programming skills.
- Attained a **GeeksforGeeks contest rating of 1708**, earning the distinction of a **3 star coder**, reflecting proficiency in data structures and algorithms.
- **Research Publication:** Authored the paper “*Integration of Virtual Lab to Enhance the Quality of Laboratory Experiments in E-Learning Domain*”, published in **Springer** proceedings of **IEM-ICDC 2025 (International Conference)**. DOI: [10.1007/978-981-96-9494-5_8](https://doi.org/10.1007/978-981-96-9494-5_8)
