EDUCATION

Institute of Engineering & Management, Kolkata <i>Bachelor of Technology in Computer Science and Engineering (IoT)</i>	Oct 2022–July 2026 <i>CGPA: 8.98</i>
Indira Gandhi Memorial Senior Secondary School, Sreebhum <i>Indian School Certificate (ISC)</i>	May 2019–Apr 2021 <i>Percentage: 71.00%</i>
Indira Gandhi Memorial Senior Secondary School, Sreebhum <i>Indian Certificate of Secondary Education (ICSE)</i>	Apr 2008–Apr 2019 <i>Percentage: 85.00%</i>

TECHNICAL SKILLS

Programming Languages: C/C++, Java, Python, JavaScript, TypeScript
Web Technologies: HTML, CSS
Frameworks/Libraries: React, Next.js, Node.js, Express.js, RESTful APIs, Tailwind CSS, Bootstrap
Developer Tools: Git, GitHub, Docker, Visual Studio Code, Postman
Databases/ORM: MongoDB, Mongoose, SQL, MySQL
Cloud: AWS

PROJECTS

Real Time Code Editor <i>React.js, Node.js, Express.js, WebSockets, Piston API</i>	Live
- Engineered a real-time collaborative code editor with instant multi-language execution powered by the Piston API. - Architected a highly scalable Node.js backend and optimized WebSocket communication, supporting 100+ concurrent users with ¡0.01% data loss during real-time code synchronization . - Developed a scalable Node.js & Express backend to efficiently manage concurrent sessions and execution workloads.	
Text to AI Image Generator <i>React.js, Node.js, Express.js, MongoDB, Razorpay, Clipdrop API</i>	Live
- Designed an AI-driven image generation tool utilizing the Clipdrop API, achieving an average image generation time of 10 seconds, thereby enhancing the iterative image creation process. - Integrated Razorpay for handling premium subscriptions and secure online payments. - Implemented JWT-based authentication with protected routes to safeguard user access.	
JobFit Evaluator <i>React.js, Node.js, Express.js, MongoDB, Firebase, Cohere AI</i>	Live
- Spearheaded the development of a full-stack web application enabling users to seamlessly upload resumes and job descriptions for AI-powered job fit analysis. - Reduced user authentication time by 50% by implementing Google OAuth with Firebase, improving login speed and overall user experience. - Built RESTful APIs using Node.js and Express.js to handle resume uploads, job description submissions and AI evaluation results, enabling scalable and efficient data processing.	

ACHIEVEMENTS

- Solved 900+ DSA problems on LeetCode and GeeksforGeeks**, demonstrating strong consistency and problem-solving ability
- Achieved a highest LeetCode contest rating of 1633**, demonstrating strong competitive programming skills.
- Attained a GeeksforGeeks contest rating of 1708**, earning the distinction of a **3 star coder**, reflecting proficiency in data structures and algorithms.
- Research Publication:** Authored the paper *“Integration of Virtual Lab to Enhance the Quality of Laboratory Experiments in E-Learning Domain”*, published in **Springer** proceedings of **IEM-ICDC 2025 (International Conference)**. DOI: [10.1007/978-981-96-9494-5_8](https://doi.org/10.1007/978-981-96-9494-5_8)
